PLANNING SERVICE

Plant with a plan, designed by experts at no additional cost. Let us custom-design a landscape plan for your home. An initial charge of \$50 should cover the cost of plans, one-half of which will be refunded with the purchase of the plants.

CONDITIONS OF SALE

Our stock is well rooted, well grown, correctly dug, and in excellent growing condition when it leaves the Garden Center. We will replace at **ONE HALF** the **price paid**, any plant that fails to leaf out by the following August. The customer will assume one half of the planting labor involved. The above is valid only if the account has been paid in full within thirty days

Since we lose control of the plant once it has left our Garden Center, we feel that the customer should assume part of the responsibility of its success inasmuch as proper care could largely determine its growth.

NOT GUARANTEED

We do not guarantee house plants, live Christmas trees, annuals, perennials, bulbs, vines, or ground covers because of the greater risk involved.

UNCONDITIONAL GUARANTEE

A Certificate of Unconditional Guarantee for one year from date of purchase will be issued upon payment of an additional 10 per cent of the cost of the plants. This Guarantee shall cover all nursery stock.

YEWS (TAXUS)

More and more yews are planted each year, as
people appreciate their many good qualities. They
are available in a wide variety of shapes from low
spreading kinds to tall pyramids. Yews are rather
slow growing and a light pruning each spring before
the growth starts will keep them in bounds. They are
disease and insect free. They should be fertilized in
early May with a complete fertilizer.

YEW, HICKS - 20'

Taxus media hicksi

One of the best yews. Columnar in habit. Dark
green foliage with bright red berries in fall.

SHADE TREES

In the past, large, fast-growing trees were planted and the small and medium growing trees were ignored. Today the trend is toward smaller trees and with good reason, since their form, color, and foliage is unlimited. They also are best-suited for use in landscaping our generally smaller, lower, modern homes. Unless otherwise indicated, prices are for bare root trees. Add \$1.00 to bare root prices if tubbed in ½ bu. basket or equivalent; \$1.50 in 1 bu. basket or equivalent. See B&B price schedule on last page of catalog for additional charge if tree is to be balled and burlapped.

FLOWERING SHRUBS

Shrubs are of primary importance in all landscape plantings. Too often shrubs are considered only for their flowering beauty; their foliage, fruit and winter appearance are forgotten. Many shrubs have not only pleasing flowers but also attractive summer leaves, fruit or berries that are handsome, and afford an interesting winter appearance. The figure immediately following the name indicates the approximate height at maturity.

GARDEN SUPPLIES

The following is only a partial listing of the hundreds of items we carry in seeds, fertilizers, insecticides, tools and garden gadgets.

LAWN SEED

Grass seed is a minor item of expense in good lawn construction. It is wise economy to buy the best possible grass seed mixture. The mixtures we list are ones that we have found to be best in our own landscape work.

FERTILIZERS

The following fertilizers are used by us in our green-houses and landscape work. You can be sure of their performance. For lawns, we highly recommend using fertilizer containing ORGANIC nitrogen, which is longer lasting and less apt to burn the grass than farm or straight chemical fertilizer. Ask for special prices on large quantities.

MULCHES AND SOIL CONDITIONERS

PEAT MOSS

Used extensively by professional and amateur gardeners both as a mulch and as a soil conditioner. Used as a mulch, it helps retain moisture and keeps down weeds; as a soil conditioner, it lightens heavy soil and improves the texture of light or sandy soils.
